### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 03 March 2011.
- 2a) ☐ This action is **FINAL**.                      2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Claims 9 and 11-19 are presented for examination.

Applicants' request for continued examination, information disclosure statement, and declaration under 37 CFR 1.132 have been received and entered.

Accordingly, the rejection made under provisional obviousness-type double patenting over claims 1, 2, 4, 5 and 7-12 of copending Application No. 12/182,772 as set forth in the previous Office action dated December 3, 2010 at pages 2-3 as applied to claims 9, 11, 18 and 19 is hereby withdrawn because the copending application is now abandoned.

Claims 12-17 are withdrawn from consideration as being drawn to the non-elected invention (37 CFR 1.142(b)).

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 9, 11, 18 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Leitz et al. (4,877,627), of record, for reason of record as set forth in the previous Office action dated December 3, 2010 at pages 3-5 as applied to claims 9, 11, 18 and 19.

Applicants' Declaration under 37 CFR 1.132 is noted, but does not overcome the 35 USC 103(a) rejection because the declaration shows the acerola leaf extract and the acerola fruit extract both contain the same polyphenol, **kaempferol**. Clearly, the leaf and the fruit of acerola derived from the same tree do have the same polyphenol, namely **kaempferol**. Once again, one skilled in the art would have assumed the acerola leaf would possess the same activity to decrease glucose absorption as its acerola fruit since the acerola leaf and the acerola fruit have the same polyphenol, **kaempferol**; unless the applicants can prove the **kaempferol** in the acerola fruit is not the active agent for decreasing glucose absorption.

The rejection made under 35 USC 103(a) is adhered to.

Art Unit: 1614

Claims 9, 11, 18 and 19 are not allowed.
